

HINKU

Towards Carbon Neutral Municipalities

carbonneutralfinland.fi

HINKU

Municipalities, business sector, residents and experts together as forerunners of climate action

Hinku network offers:

- ▼ ***Support for municipalities' climate work***
- ▼ ***Sharing of best practices***
- ▼ ***Emission calculation services and tools***
- ▼ ***Communication cooperation and networking opportunities***
- ▼ ***Support for preparing projects***
- ▼ ***Visibility for partner companies' climate friendly products and service***

- ▼ The Hinku network, established in 2008, brings together municipalities, residents, energy and climate experts and businesses providing climate-friendly products and services.
- ▼ The municipalities are reducing their emissions by increasing the use of renewable energy and improving energy efficiency, among other measures.
- ▼ Hinku municipalities encourage local businesses and residents to get involved in climate action.
- ▼ New municipalities and business partners are welcome to join the Hinku network. To become a member, Hinku municipalities must fulfil the Hinku criteria and carry out predefined measures to kickstart climate action.
- ▼ The network is coordinated by the Finnish Environment Institute (SYKE).

Showcasing climate actions – Energy and Material Leap

The Energy and Material Leap website – Energia- ja materiaaliloikka in Finnish – is an open platform for sharing best practices in climate change mitigation and circular economy.

Discover local climate actions or add your own at:
